

MD electric hoist with two lifting speed: normal speed and low speed Normal speed can meet the requires of normal loads lifting and handling; low speed satisfy the requires of precise loading and unloading, mechanic /electric equipment lifting and handling, machine repairing, etc.

Weihua electric hoist:
Manufacturing according to GB/JB standard
High degree of standardization
Affordable price
Reliable quality
Durable
Highly optimized for general use
Low maintenance cost

Weihua MD electric hoist including its wire rope, hook set, control, electrics, etc. their design and manufacturing strictly according to national standard.

GB/JB标准设计制造 严格按照国家标准设计制造 The GB/JB standard design and manufacture

GB/T3811—2008 《起重机设计规范》 GB6067.1—2010 《起重机机械安全规程》 GB/T5905—1986 《起重机试验规范和程序》 GB8918—2006 《董要用途钢处编》 GB/T700—2006 《碳素结构钢》 GB/T1591—2008 《低合金高强度结构钢》 GB/T 30028-2013 《电动葫芦能效测试方法》 JB/T 10222-2011 《防爆电动葫芦》 JB/T 3695-1994 《电动葫芦桥式起重机》 JB/T 9008.1~JB/T 9008.4-2004 《钢丝绳电动葫芦》

Electric hoist Test Platform – up to 100ton

All the electric hoists with export packaging, then delivered to the appointed China port.

Technical Specification:

Туре	MD double speed							
Capacity (t)	0.25	0.5	1	2	3	5	10	16
Lifting Height (m)	3~9	6~12	6~30	6~30	6~30	6~30	9~30	9~30
Lifting Speed (m/min)	0.8/8							0.35/3.5
Travel Speed (m/min)	20	20/30 18						
Rail	10-20b	16-28b		20a-32c		25a-50b	32b-50b	32b-63c
Work Duty	M4							
Power	3PH AC 380V 50Hz							

General Drawing (attached 10ton-18m double speed electric hoist):

Parts included (per electric hoist):

Picture	Name
	Main set
	Lifting motor-
	Traveling motor and trolley
	Limit switch
- Storestone	Ground Control
	Electric parts
	Wire rope
3 7	Hook set
